Q4 2017 Summary

- **Total portfolio loans of \$2.59 billion, a 31% year-over-year increase**
- **Total deposits of \$2.25 billion, a 39% year-over-year increase**
- **Net income of \$6.5 million, or \$0.13 diluted EPS, including a non-cash charge of \$3.3 million recorded to tax expense relating to the recently enacted tax reform**
- **Net interest margin of 3.97%**
- **Successfully completed initial public offering with a total offering size of over \$200 million, with net proceeds of over \$85 million to the Company**

Southfield, Michigan, January 30, 2018 — Sterling Bancorp, Inc. (NASDAQ: SBT), the holding company of Sterling Bank and Trust, F.S.B., today reported unaudited financial results for its fourth quarter and full year ended December 31, 2017.

For the three months ended December 31, 2017, net income totaled \$6.5 million, or \$0.13 per diluted share, based on 49.0 million weighted average diluted shares outstanding, and included a \$3.3 million, or \$0.07 per diluted share, tax expense related to a revaluation of the Company's net deferred tax assets as a result of the decrease in the federal corporate tax rate. This compares to third quarter 2017 net income of \$12.1 million, or \$0.27 per diluted share, based on 45.3 million weighted average diluted shares outstanding. For the fourth quarter of 2016, net income totaled \$6.1 million, or \$0.14 per diluted share, based on 45.3 million weighted average diluted shares outstanding.

For the full year, net income increased to \$38.0 million, or \$0.82 per diluted share, based on 46.2 million weighted average diluted shares outstanding, and included a \$3.3 million, or \$0.07 per diluted share, tax expense related to the revaluation of the Company's net deferred tax assets. This compares with 2016 net income of \$33.2 million, or \$0.73 per diluted share, based on 45.3 million weighted average diluted shares outstanding.

"2017 was a landmark year for our company, as we completed our initial public offering and generated record net income, driven by continued strong growth in both loans and deposits, combined with our very efficient business model," said Gary Judd, Chairman and CEO of Sterling Bancorp. "We continued our positive momentum in the fourth quarter, generating strong loan growth, pristine credit quality and an excellent efficiency ratio. As a result, the income that we generated from our spread lending business in the fourth quarter was at its highest quarterly level in the company's history."

"In 2018, we plan to continue executing our strategy of expanding our franchise through de novo branch openings and new loan production offices. As a relationship bank, we remain committed to offering loan products that our customers value, while maintaining our strong credit culture and discipline. We are investing in the business to support our growth plans and further expansion in the attractive markets that we serve, all with a focus on driving improved profitability. I would like to thank all of the new shareholders who participated in our initial public offering. We look forward to working hard on your behalf to increase the value of your investment in Sterling Bancorp," concluded Mr. Judd.

Operating Results for the Fourth Quarter 2017

Net Interest Income

Net interest income for the fourth quarter of 2017 was \$26.9 million, an increase of 5.6% from \$25.5 million for the third quarter of 2017. The increase in net interest income from the third quarter was primarily attributable to a \$194 million increase in average interest earning assets, partially offset by the effects of a 7 basis point decrease in the net interest margin.

Relative to the fourth quarter of 2016, net interest income increased 32% from \$20.4 million. The increase in net interest income from the fourth quarter of 2016 was primarily attributable to a \$683 million increase in average interest earning assets, partially offset by the effects of a 4 basis point decrease in the net interest margin.

Net Interest Margin

Net interest margin for the fourth quarter of 2017 was 3.97%, compared to 4.04% for the third quarter of 2017. The decrease in net interest margin was primarily attributable to a 14 basis point increase in the average cost of deposits.

Relative to the fourth quarter of 2016, the net interest margin decreased from 4.01%, primarily due to a 24 basis point increase in the average cost of deposits, partially offset by a 13 basis point increase in the average yield on interest earning assets.

2

Noninterest Income

Noninterest income for the fourth quarter of 2017 was \$2.8 million, a decrease from \$6.2 million for the third quarter of 2017. The decrease was primarily the result of a \$3.3 million decline in the gain on sale of portfolio loans due to a decrease in the amount of residential mortgages sold in the secondary market compared to the prior period.

Noninterest income increased from \$1.2 million in the fourth quarter of 2016, primarily as a result of a \$0.6 million increase in the gain on sale of portfolio loans due to an increase in the amount of residential mortgages sold in the secondary market and a \$0.9 million loss on the sale of an investment in 2016.

Noninterest Expense

Noninterest expense for the fourth quarter of 2017 was \$11.9 million, compared with \$10.3 million for the third quarter of 2017. The fourth quarter expenses included \$0.2 million of severance expense, \$0.2 million of expenses related to the initial public offering and \$0.1 million in expenses following an annual reassessment of the Company's BOLI liabilities.

Relative to the fourth quarter of 2016, noninterest expense increased from \$9.0 million. The increase was primarily due to an increase in personnel expenses and occupancy and equipment costs required to support the growth in our operations.

The Company's operating efficiency ratio was 40.2% in the fourth quarter of 2017, compared with 32.7% in the third quarter of 2017 and 41.9% in the fourth quarter of 2016.

Income Taxes

The effective tax rate for the three and twelve months ended December 31, 2017 was 62% and 46%, respectively, compared with 43% and 41% for the three and twelve months ended December 31, 2016, respectively.

On December 22, 2017, "H.R.1", formerly known as the "Tax Cuts and Jobs Act", was signed into law. Among other items, H.R.1 reduces the federal corporate tax rate to 21% effective January 1, 2018. As a result, the Company concluded that the reduction in the federal corporate tax rate required the revaluation of the Company's net deferred tax assets. The Company's net deferred tax assets represent expected corporate tax benefits anticipated to be realized in the future. The reduction in the federal corporate tax rate reduces these benefits. The Company performed an analysis and determined that the value of the deferred tax assets had declined by \$3.3 million. To reflect the decline in the value of the deferred tax assets, the Company recorded additional tax expense of \$3.3 million during the fourth quarter of 2017.

As a result of the newly enacted tax legislation, the Company estimates that its effective tax rate for 2018 will be in the range of 28% to 30%. The actual annual effective tax rate will vary depending upon tax-advantaged income and available tax credits.

Loan Portfolio

Total loans held for investment, net of allowance for loan losses, were \$2.59 billion at December 31, 2017, compared with \$2.37 billion at September 30, 2017. The increase was primarily attributable to a \$220 million increase in the residential mortgage portfolio.

3

During the fourth quarter of 2017, the Company originated \$520 million in loans, which included \$463 million in residential mortgage loans, \$12 million in commercial real estate loans, \$40 million in construction loans and \$5 million commercial and industrial loans.

Deposits

Total deposits were \$2.25 billion at December 31, 2017, compared with \$2.10 billion at September 30, 2017. The increase was primarily attributable to a \$109 million increase in Savings, NOW and money market deposits.

Credit Quality

Nonperforming assets totaled \$3.8 million, or 0.13% of total assets, at December 31, 2017, compared with \$3.9 million, or 0.15% of total assets, at September 30, 2017.

Net charge-offs (recoveries) for the fourth quarter of 2017 were \$(668,000), or (0.03)% of average loans on an annualized basis, consisting of \$19,000 of gross charge-offs and \$687,000 of recoveries.

The Company recorded a provision for loan losses of \$600,000 for the fourth quarter of 2017, primarily reflecting the growth in the loan portfolio.

The Company's allowance for loan losses was 0.71% of total loans and 2,357% of nonperforming loans at December 31, 2017, compared with 0.72% and 1,916%, respectively, at September 30, 2017.

Non-GAAP Financial Measures

Some of the financial measures included in this press release are not measures of financial performance recognized in accordance with accounting principles generally accepted in the United States ("GAAP"). These non-GAAP financial measures include "Average Tangible Common Equity," and "Return on Average Tangible Common Equity," each of which are common metrics in the banking industry. Our management uses these non-GAAP financial measures to assess the Company's capital strength and business performance. These non-GAAP financial measures are supplemental and are not a substitute for any analysis based on GAAP financial measures. Not all companies use the same calculation of these measures; therefore this presentation may not be comparable to other similarly titled measures as presented by other companies. For further information see "Reconciliation on Non-GAAP Financial Measures" in the Financial Data section that follows.

Forward-Looking Statements

Readers should note that in addition to the historical information contained herein, this press release includes "forward-looking statements," within the meeting of the federal securities laws, including but not limited to statements about the Company's expected loan production, operating expenses and future earnings levels. These statements are subject to many risks and uncertainties, including changes in interest rates and other general economic, business and political conditions, including changes in the financial markets; changes in business plans as circumstances warrant; and other risks detailed from time to time in filings made by the Company with the Securities and Exchange Commission. Readers should note that the forward-looking statements included in this press release are not a guarantee of future events, and that actual events may differ materially from those made in or suggested by the forward-looking statements. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "will," "propose," "may," "plan," "seek," "expect," "intend," "estimate," "anticipate," "believe" or "continue," or similar terminology. Any forward-looking statements presented herein are made only as of the date of this press release, and we do not undertake any obligation to update or revise any forward-looking statements to reflect changes in assumptions, the occurrence of unanticipated events, or otherwise.

Average Tangible Common Equity Reconciliations (non-GAAP)

Average tangible common equity and return on average common equity are non-GAAP disclosure. Our management uses these non-GAAP financial measures to assess the Company's capital strength and business performance. Average tangible common equity excludes the effect of intangible assets. This non-GAAP financial measure should not be considered a substitute for those comparable measures that are similarly titled that are determined in accordance with U.S. GAAP that may be used by other companies. The following is a reconciliation of average tangible common equity to the average shareholders' equity, its most comparable GAAP measure, as well as a calculation of return on average tangible common equity as of December 31, 2017 and 2016, and September 30, 2017.
